

# Experimental Artmaking

mixed media transfer and painting workshop

Spend the day making art in a light filled studio overlooking the bay! Discover what pure fun, spontaneity and trusting yourself will produce.

All levels of skill welcome—this workshop is a creative kickstart for seasoned artists and beginners alike. We'll experiment with various different transfer techniques and source materials such as photos and illustrations, incorporating them into artworks in mixed media.

All artmaking materials will be provided. We encourage you to bring any of your favorite photos, drawings or illustrations to play with. You'll leave with fresh ideas and new artwork in hand.
